DIGITAL PRINT WITH REALT[®]OUCH[®] APPLICATION

Realistic textures with the latest digital printing technology

THE NEW DIMENSION OF DIGITAL PRINTING

Finzzi always strives to be at the forefront of design and technology to be leaders in progress by taking the production of vinyl flooring to levels that can only be imagined. With great pride, 'Finzzi Select' comes to life, a revolutionary production process that digitally recreates any design directly onto the body of our advanced SPC core eliminating the use of paper film, allowing for infinite designs with limited repeats, a depth and vibrancy that creates an authentic three-dimensional texture that can only be experienced with our REALT[®]OUCH[®] technology making every design unique and adding further strength and greater durability to what is already a hard-wearing product.

An additional layer of added protection kills 99.9% of all staph and E. coli bacteria to the touch. So now you can enjoy life knowing that you and your loved ones are safe with anti-bacterial flooring for healthy living.

ONE CLASS FOR ALL! CLASS 33 HEAVY COMMERCIAL

FINZZI SELECT DIGITAL ELIMINATES THE GUESSWORK AND SIMPLIFIES PRODUCT SELECTION.

With Finzzi Select, we have simplified our products as much as possible. Forget about choosing between different wear layers because, with our new multi UV application process, our product is rated as Class 33 apt for commercial heavy traffic use.
