DIGITAL PRINT WITH REALT[®]OUCH[®] APPLICATION

Realistic textures with the latest digital printing technology

THE NEW DIMENSION OF DIGITAL PRINTING

Finzzi always strives to be at the forefront of design and technology to be leaders in progress by taking the production of vinyl flooring to levels that can only be imagined. With great pride, 'Finzzi Select' comes to life, a revolutionary production process that digitally recreates any design directly onto the body of our advanced SPC core eliminating the use of paper film, allowing for infinite designs with limited repeats, a depth and vibrancy that creates an authentic three-dimensional texture that can only be experienced with our REALT[®]OUCH[®] technology making every design unique and adding further strength and greater durability to what is already a hard-wearing product.

An additional layer of added protection kills 99.9% of all staph and E. coli bacteria to the touch. So now you can enjoy life knowing that you and your loved ones are safe with anti-bacterial flooring for healthy living.

LESS LAYERS, MORE ECO-FRIENDLY

01. Multi layered UV coating including Finzzi's BioShiled

With the new multi layer UV & Finzzi's BioShield anti bacterial application it adds the final touch to Finzzi Select adding layered protection to withstand the test of time.

02. Digital Print with REALT[®]OUCH[®] Application

Finzzi Select revolutionary Digital Print with REALT[®]OUCH[®] application is applied directly onto the core eliminating the use of traditional paper film and opening up a world of design possibilities with synchronised multi-face designs adding a textured three dimensional finish.

03. SPC Core

Stone polymer core, which makes the floor highly resistant to impacts and scratches and very stable to temperature changes.

04. IXPE Backing

Provides cushion, sound absorption and shaping capability.

ONE CLASS FOR ALL! CLASS 33 HEAVY COMMERCIAL

**FINZZI SELECT DIGITAL ELIMINATES
THE GUESSWORK AND SIMPLIFIES
PRODUCT SELECTION.**

With Finzzi Select, we have simplified our products as much as possible. Forget about choosing between different wear layers because, with our new multi UV application process, our product is rated as Class 33 apt for commercial heavy traffic use.

**NO MORE 8MIL, 12MIL OR
22MIL... THAT'S A THING
OF THE PAST!**

Drop'n'Click[®] 5G Fold Down A NEWER IMPROVED LOCKING SYSTEM

MAKE FLOOR INSTALLATION EASY & FUN.

Floor installation should be a fast and simple process with perfect results every time. That means no gaps between the boards, no unevenness and no squeaking sounds. Equally important, the floor should remain perfect for the lifetime of the floor.

INSTALLATION TIME

 Drop'n'Click[®]
5G Fold Down

Single action

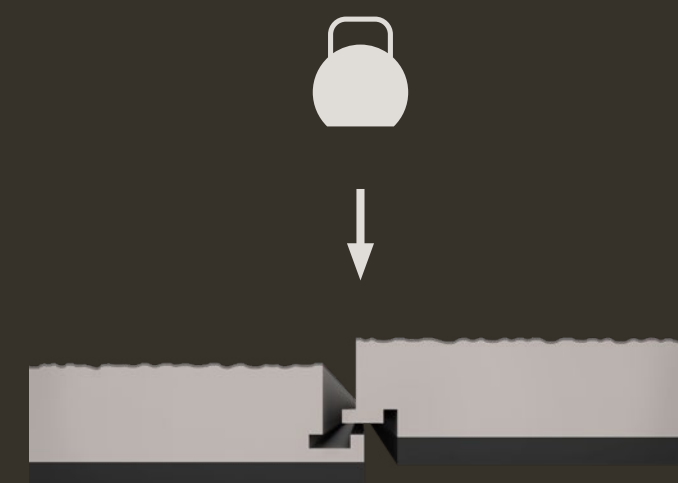

Angle - Snap

Snap - Snap

HIGH IMPACT RESISTANT LOCKING SYSTEM

When subject to high vertical load, poorly designed locking systems might result in height differences, gap openings or they might even break. We put our locking systems through comprehensive testing to ensure that our licensees' products last even under the toughest conditions.

Drop'n'Click® 5G Fold Down **THE EASIEST WAY TO INSTALL** **A VYNIL FLOOR**

FOLD DOWN INSTALLATION.

Now it's possible to easily remove individual panels without removing an entire row. With the new 5G profile and the specifically designed dismantling pin, it is possible to push the tongue back into the groove thereby unlocking the panels.

The system is based on a single action installation method suitable for all types and widths of floor products.

When a panel is folded down, a flexible plastic tongue is pushed into a tongue groove. As the panel reaches its final position, the tongue snaps out into a wedge groove, emits a "click" sound and locks the product vertically and horizontally.

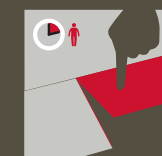

SOLUTIONS FOR EVERY NEED.

FOLD DOWN INSTALLATION.

Fastest, easiest & strongest installation
Locking provided by plastic tongue
Works with all materials and widths
For thicknesses down to 4 mm
Large tolerance window

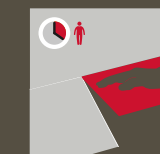

Drop'n'Click® 5G Fold Down

PUSH DOWN INSTALLATION.

Fast, easy & strong installation
Locking provided by integrated locking element
Significantly stronger than other one-piece solutions.
